INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all theunjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

We went to the commanding officer for a piece or two of artillery, but none was sent, the consequence was the enemy came on in spite of our resistance & a running fight was kept up through the town which on the Williamsburg road ended in a hurried retreat. Our artillery from the hill by the Charles Town road came on in the rear of our retreating Cavalry & was captured by the enemy. We crossed the river at Williamsburg & camped for the night. In the morning learning that the enemy would cross at dawn No. 5. We started for that point to harass him. With a squad of 25 men. on the road met a small squad of the enemy - dashed after them but ran into a larger force of rebels, hid behind a hill & the forces close by. I was mortally killed - the Captain taken prisoner but soon after escaped & the rest retreated without. From this point kept watch of the enemy in conjunction with Capt. Boyd of the N.Y. Cavalry as far as Hanisburg & on their retreat followed them back to the same point, capturing nearly 200 prisoners with not more than 100 men all told.

Many of the men have been transferred from ^{one} Hospital to another to make room for the wounded in the battle before Alex & Washington and bring on the march our mails have not reached us. No efforts have been made to secure their return. Four three inch rifled ordnance, the condition of the carriages are not as strong as they ought to be, but are in a weak condition; we have six caissons, two of them new the other four have many of the wheels badly checked. Battery wagon of the pattern 'C' in good condition, the Forge in good condition except having lost some of the panneling on the side off. No efforts have been made.

RECORD OF EVENTS.

This Battery marched from Berryville to Winchester on 13th June. The Rebel Cavalry under Major Sweeney of Jenkins Cavalry came up with the rear guard of 3^d Brigade on the road at the Opequan. After a skirmish of about 20 minutes with the rear guard consisting of 2 Squadrons 1st N. Y. Cavalry, 2 Companies 6th Md Vols and 1 Section of this Battery, the Rebels were driven back with a loss of between 30-40 killed & captured. The Brigade on reaching Winchester was placed on the Star Fort. Two sections were engaged with the enemy's skirmishers during Sunday 14th in the forenoon. In the evening at 6 P.M. the enemy opened with 2 batteries & after some

with 4 batteries continuing the
 cannonade until 9 P.M. by which
 time we succeeded in silencing
 them & driving them from their
 position. I ascribe our success
 to the undaunted heroism of the
 men of the Battery (who behaved
 with great coolness though it was
 their first engagement) and also to
 the accuracy of our guns, 3 inch
 Regulation guns with Schenckel
 projectiles. At 1 A.M. Monday
 morning we were ordered by
 Gen Milroy to spike our guns &
 retreat with our horses. At 5
 miles from Winchester the Enemy
 was met in force. Our Comrades
 & drivers being unarmed they
 were ordered to break & proceed to
 Harpers Ferry or any other point
 on the Potomac. Those who were
 made missing in action are
 those of whose fate we are ignorant

I have established a Provost Guard in the town of Williamsport which with my pickets and river guards have closed up all communication between this and the Virginia shore. Our guard duty is very onerous upon officers and men, but is performed well and cheerfully.

The drill and discipline of the Regiment is good and its general health very good.

anticipated crossing the river
by the rebels at this point.

On the 9th Dec. S. D. H.
and 76 were relieved from
their post on the river below
this and reported for duty
at our headquarters. I

regret to have to report so
many absences without
authority. the regiment having
been paid on the 22nd large
numbers after being refused
passes left for Baltimore
where they now are. I have
dispatched an officer for the
purpose of arresting and
bringing them back.
